Abby FineReader 11

ABBYY®

ABBYY is a leading provider of document conversion, data capture, and linguistic software and services. The key areas of ABBYY's research and development include document recognition and linguistic technologies.

ABBYY's recognition technologies and products help people manage the increasing amount of information delivering powerful instruments which enable them to: unlock information from paper and images, automatically acquire data, and process and store valuable information. Using recognition and data capture products, people save money and effort typically spent on data entry, and benefit from the ability to access information in new, more efficient ways. Our linguistic products help break down language barriers, facilitating easier and clearer communication.

Today, ABBYY is an international company with over 900 employees worldwide (as of January 2010). ABBYY products are being sold in more than 130 countries around the world through an extensive network of regional and international partners. The overall number of users of ABBYY products, which range from end user applications for PC and mobile devices to enterprise solutions and development tools, exceeds 30 million people according to internal research.

Reduce costs and save resources with FineReader 11

Organisations throughout the UK have a requirement to store and log contracts, forms, audits, invoices, customer records to fulfil compliance regulations and security protocols. With the cost of storage ever increasing, how can organisations save money and time while meeting all of their document storage requirements?

ABBYY FineReader 11 is an ideal Optical Character Recognition (OCR) software choice for organisations that have a requirement to store a high volume of business documents in a safe, secure and searchable format.

With **ABBYY FineReader 11** organisations can save time and resources typically spent

on retyping texts from scanned paper documents, PDF files and digital camera images by reading and converting files into text which you can copy and paste, search or edit.

With **ABBYY Recognition Server 3.0** departments within organisations can utilise a robust and powerful server based OCR solution to convert large volumes of documents into useable electronic copies.

Industries that are using ABBYY solutions include:

- **Government:**
FineReader helps automate document-driven business processes within local governments and eliminates costly manual labour.
- **Finance/Banking:**
By implementing automated, timely and accurate processing of financial documents FineReader and Recognition Server improve operational efficiency.
- **Legal:**
FineReader improves and modernises legal offerings by implementing automated and accurate processing of legal documents.
- **Transportation:**
The adoption of FineReader and Recognition Server continues to help transport organisations automate and improve processing and archiving of a multitude of shipping documents.
