Acronis Access 7.0

Acronis is a global provider of leading backup, disaster recovery, and secure file sharing and file access solutions. Founded in 2002 Acronis has established itself as a fast-growing international company with more than 700 employees in 18 countries and partners in almost every country in the world. Acronis provides complete, efficient and reliable backup solutions for desktop, server, virtual and cloud environments as well as leading file sharing and sync solutions for mobile devices.

Acronis knows backup. The proof is in the more than 50 advanced backup and recovery technologies developed to date. Over 4.5 million consumers, small and medium businesses and service providers employ Acronis products to protect their critical data.

The company's flagship product Acronis Backup delivers sophisticated technology solutions packaged in an easy-to-use way that allows smaller companies to address their new enterprise-level requirements. Enterprises also use Acronis solutions to address their point disaster recovery, migration and end-point backup needs.

Acronis Access

Secure content access, sync and share solution for
the enterprise. Control. Secure. Mobilize.

ACRONIS® ACCESS 7.0

SECURE CONTENT ACCESS, SYNC AND SHARE SOLUTION
CONTROL. SECURE. MOBILIZE.

Designed exclusively for small and medium-sized businesses, Acronis Access is the industry's most affordable, best-in-class solution for secured mobile file access, sync, and share. Easy, complete, and safe, Acronis Access lets your employees work with the business content they need to be productive, no matter where they are, no matter what device they use.

BENEFITS OF ACRONIS ACCESS

- **Improve productivity** - Makes the remote, traveling, or telecommuting employee as effective as an in-office employee when out of the office or on the road.
- **Enhance customer service** - By improving their productivity, employees will be able to respond faster to customer inquiries and problems.
- **Embrace BYOD** - Employees want the convenience of using their preferred devices for work. BYOD can be a strong differentiator in attracting new talent.

BEST ACCESS, SYNC, AND SHARE SOLUTION

Content, Anywhere, Anytime – Acronis Access lets authorised employees access, sync, and share content that resides on corporate file servers, SharePoint, NAS, and other data repositories using any device – iPhone or Android smart phone, tablet, laptop, PC or Mac.

Secure In-app Editing and Annotation - Users can create and edit Office documents and annotate pdf's within the Acronis Access mobile app, turning the mobile device into a true business platform.

Easy-to-use User Interface – An intuitive UI makes it simple and natural for users to use, requiring virtually no training.

Security and Control – Acronis Access's easy-to-use policies ensure control of content, users, and devices, including when you wipe content from employee devices.

Integration with Active Directory® - Acronis Access integrates with Active Directory® for authentication, user account management, and device enrollment.

Tracking and Audit Trails – Audit trails always let you know what users are doing and who is accessing and sharing your content.

Encryption – Acronis Access provides secure over-the-air and on-device FIPS 140-2 certified encryption.

On-premise Deployment - Acronis Access is deployed on-premise providing the business with complete control over content and security.

Fast Installation - Acronis Access installs in a matter of minutes, delivering immediate time-to-value.

BENEFITS

- Increases IT control
- Improves content security

- Ensures regulatory compliance
- Boosts end-user productivity

FEATURES

- Fast on-premise installation and rollout
- Access to file servers, NAS & SharePoint from mobile devices, Mac and PCs
- Managed sharing from all devices
