Acronis True Image 2015 Unlimited

Acronis

The rise of virtualization, the explosion of data creation and the opportunities Cloud services offer are bringing new challenges to maintaining effective backup and disaster recovery programs for critical data.

Acronis can help you securely migrate, protect and recover critical data wherever it resides in your physical, virtual or cloud environments. With a Unified Platform and new generation technology, its innovative solutions are designed to ease the management burden and reduce total cost of ownership, while improving your recovery time objectives.

Acronis True Image 2015 Unlimited

Get ready for Windows 10 - Faster. Easier. Smarter.

Over 5,000,000 users have trusted Acronis True Image to protect their precious photos, music, movies, and personal documents.

Acronis True Image 2015 - Back up,

- Full system image backup instantly captures your entire PC in one quick step (both locally & to the Acronis cloud).
- Easily recover any lost data in minutes – from your entire PC to a single file.
- Optional cloud storage and automatic cloud backups double your data protection.
- Enjoy faster upload speeds to the secure Acronis cloud – now 20% faster and more reliable than ever before!
- Our reinvented interface makes any backup task faster & easier – even if you aren't an expert.
- Now includes full support for Windows 8.1 (including touch screens).

The award winning Acronis True Image Unlimited

Top technical sites strongly advise you to do a complete backup of your system BEFORE you upgrade to Windows 10. Acronis True Image is the only solution that protects your Windows 10 upgrade experience, protects all of your data locally and in Cloud, and allows you to get back to your previous version of Windows tomorrow or any time in the future.

Planning to install the new Microsoft Windows 10? Backup your entire PC locally or to the Acronis Cloud, and have your new system protected — or simply roll back to your old Operating System.

Backup first with Acronis — then upgrade your Operating System!

Back up an image of your entire PC with everything on it to the cloud and to local storage devices to get double the protection. Acronis True Image Cloud Unlimited offers just that: unlimited cloud backup so your data will never be lost or corrupted. If necessary, you can restore your entire computer to the exact previous state in minutes, without the need to reconfigure your computer or reinstall applications.

Key Features

Full System Image Backup

Backup your entire system image – that is all your apps, files, user accounts, exact configurations, and even the OS in one compressed file.

Parallels compatible

If you work with Parallels Desktop 9 or later, your virtual system is backed up exactly the same way as your Mac. Other virtual machines are supported, too.

Universal Restore

Move your system from any PC to any PC – no matter what make or model you use.

Unlimited Cloud Backup

Save your whole system to a secure cloud with no space limitations, and access it anytime, anywhere.

Easy recovery – anywhere, anytime

Get your computer back to where it was at any given moment. Quickly restore from the cloud or your local storage.

Fastest upload speed

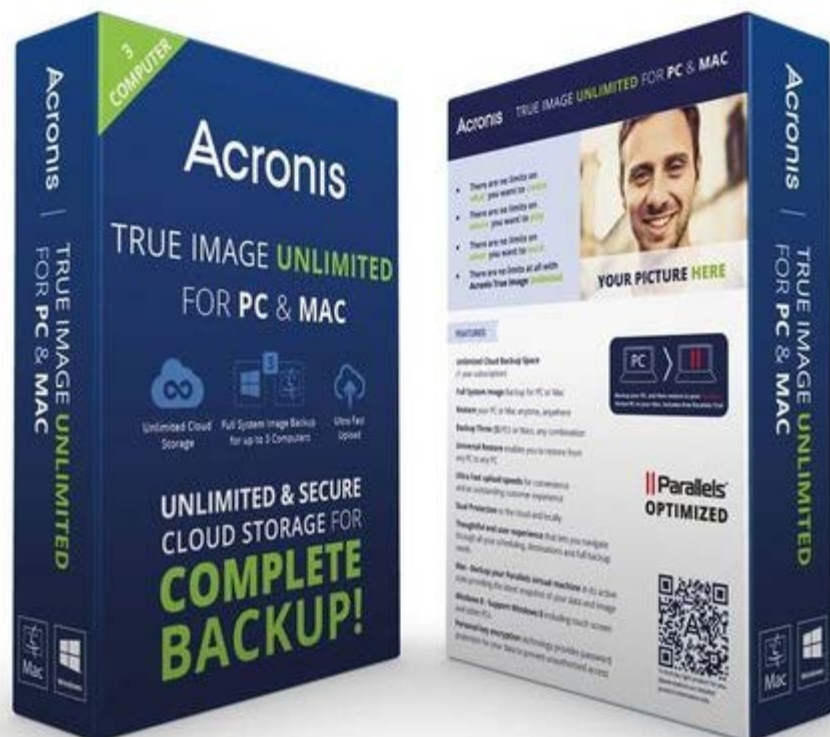

Backup to the cloud is so much faster now with the new improved uploading technology.

Easy to use

True Image Unlimited is made easy, intuitive and automated. PC or Mac, you'll know what to do straight away.

Fair Usage Policy

Acronis True Image and the unlimited cloud storage is intended to provide our customers with the added protection of storing the backup of their PC in the Acronis Cloud. Our unlimited cloud storage offer requires our customer's compliance with the licensing policy, protecting 1 full system backup per license. A vast majority of customers and PC's range between a few GB's up to 2 TB of data. If Acronis True Image is used properly, your full system backup (and incremental backup for the changes you make to your system) will be optimized and the size will not be that much larger than the size of your full system backup. In order to ensure all of our customers have the best experience possible with Acronis Cloud, we constantly monitor our network and hardware in order to ensure there is no abuse of the cloud backup. The maximum expected size of the range per physical machine is approximately 3TB.
