Enfocus PitStop Pro 2020

Enfocus is a leading software company specializing in the development of tools to **control the quality of PDF files** for print and to **automate workflow processes** in the **graphic arts industry**. The company's innovative solutions streamline the workflow throughout the complete production chain – **from design to final print** – thereby connecting printers, publishers and designers.

Enfocus products go beyond preflight checks, delivering **auto-correction of PDFs**, advanced **PDF editing and automation** to guarantee accurate and efficient file exchange.

PITSTOP
PRO 2020

PitStop Pro 2020: PDF checked, fixed, ready

The comprehensive PDF tool for prepress:

- Confidently preflight and edit PDF files for print
- Automatic fixes make prepress more efficient
- Global user base of over 135,000
- Adobe Acrobat® plug-in ensures standardized PDF

New features:

PitStop is an evolving solution.

luotettava
kumppani

2019

Softa Superstore
Finland Oy

asiakastieto.fi

It receives regular updates with innovative feature additions.

- Industry-leading advancements
- Evolution driven by customer needs
- Capabilities developed to overcome real-world challenges

PDF validation (AKA preflight)

PitStop Pro is the industry standard for PDF validation. It is the one tool that gives prepress power over PDF. PitStop solves preflighting, editing, repairing and reporting for any PDF challenge your team will face.

Interactive preflight report

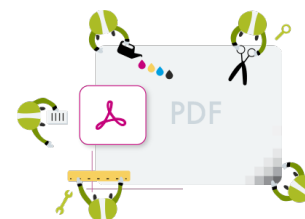

PitStop Pro will generate a preflight report based on benchmarks that you choose. The interactive report can be as basic or detailed as you require to suit your customers.

A PitStop Pro preflight report contains a clickable list of warnings and errors that visually indicate exactly where the issue is located.

Truly powerful PDF editing

PitStop Pro can **edit any element in a PDF file** from within Adobe Acrobat®:

- Paths
- Images
- Colors
- Layers
- Pages

PDF inspection

PitStop provides a molecular look into the construction of a PDF file.

Get information about:

- Page geometry
- Object containers
- Fonts
- Color modes
- Image resolutions
- Transparency
- Object stacks
- Hidden non-

printing items

It allows prepress personnel to dissect a PDF file to explore and investigate its components and its structure.

Action Lists: automated tasks

- Create a series of actions to be performed in one click.
- Select objects and elements according to specific criteria.
- Manipulate selections in a myriad of ways to perform corrections.
- Place new objects on pages to suit production.

Ships with many pre-defined Action Lists

With a library of Action Lists to get you started, you'll be making one-click fixes immediately after install. Creating your own Action Lists is simpler and more intuitive than ever.

Conquer Color

Gain control over issues with PDF color specifications that emerge from incorrect modes and naming.

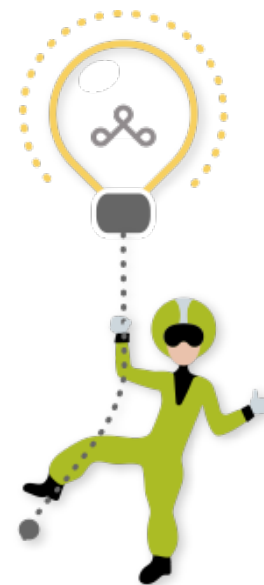

- Check color mode
- Naming consistency
- Remapping
- Converting
- Spot and special color functions

Newest innovations

PitStop Pro is an evolving solution.

As such, it receives regular updates with great feature additions. See the latest release notes. Yes. PitStop Pro can do that too.

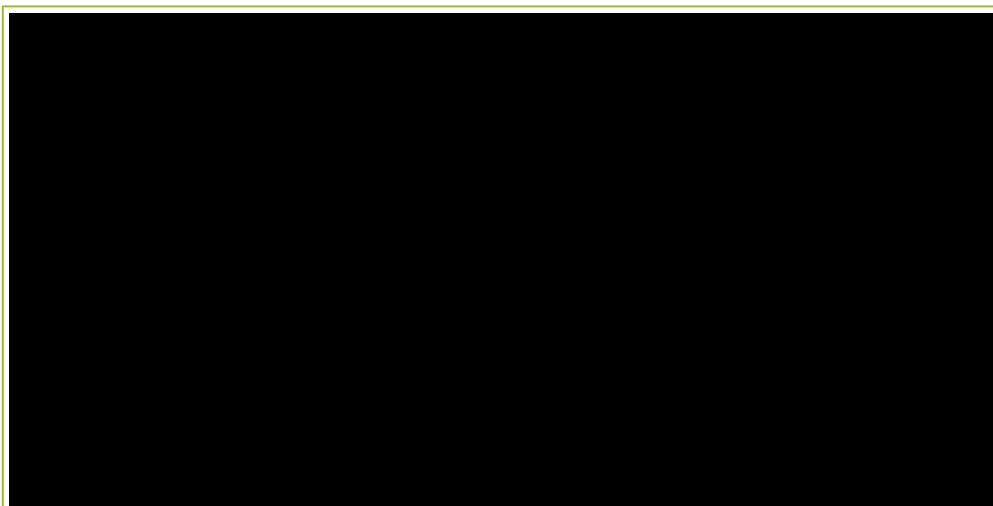

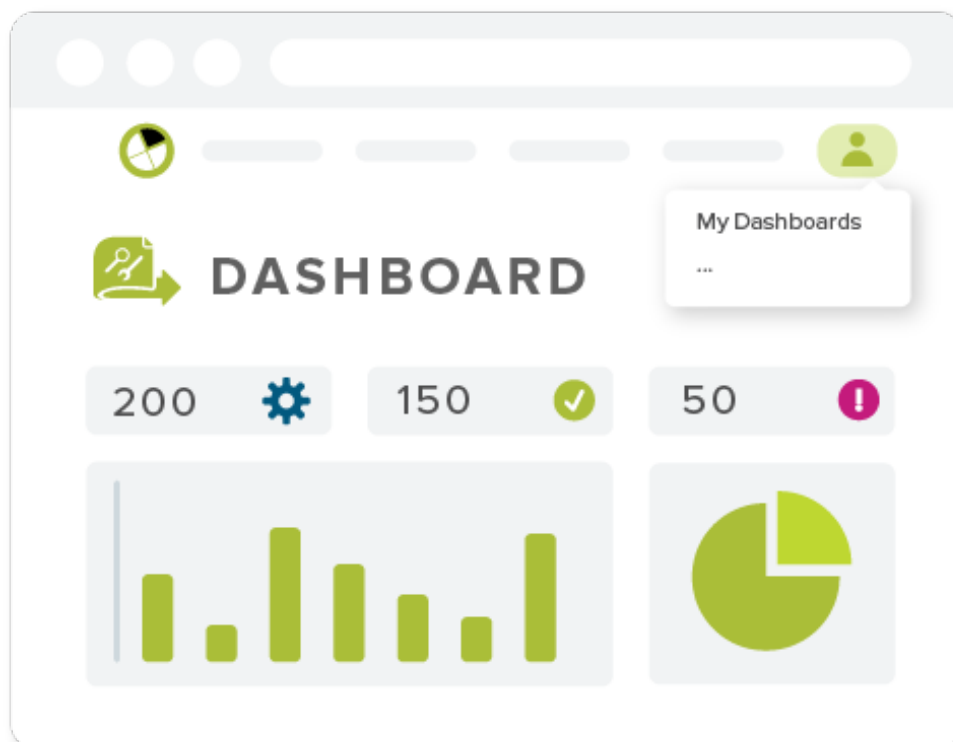

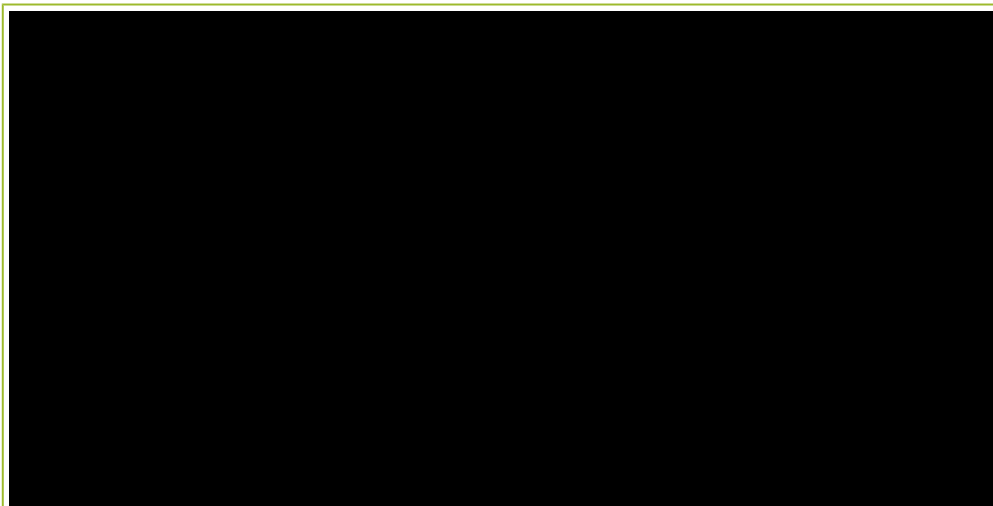

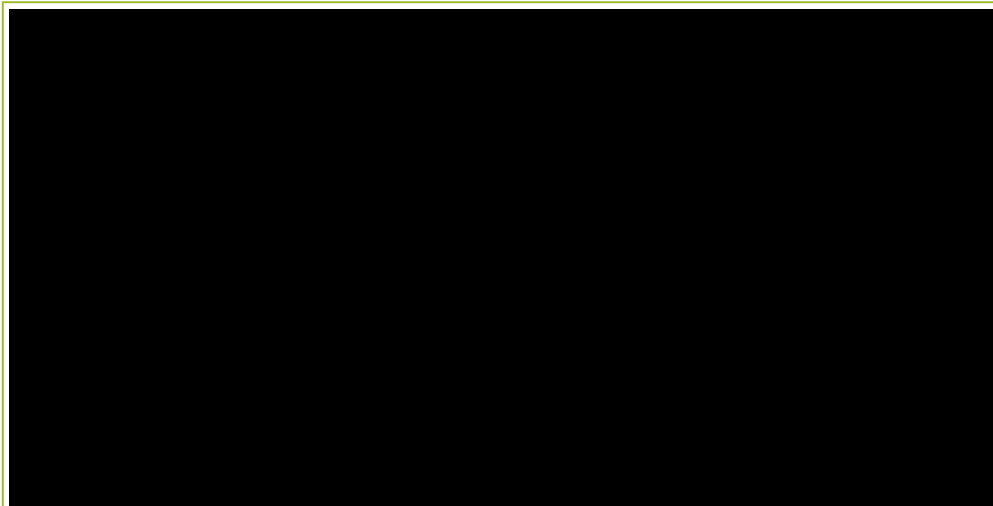

Usage data dashboard

Access your PitStop Pro usage data from your Enfocus account. The dashboard displays insights into how you are using BoardingPass.

- Number of files processed
- Number files fixed and number of errors
- Top preflight results
- and more!

Usage data provides a valuable overview of in-app activity, allowing you to quickly determine the quality of incoming job files. This information can assist both business and production decisions.

**MORE
POWER
TO YOU**

PitStop Pro 2020 Trial

A plug-in for Adobe Acrobat to check & edit PDF files.

Softa SuperStore Finland Oy helps you with software matters in Helsinki, Espoo, Tampere, Vantaa, Oulu, Turku, Jyväskylä, Lahti, Kuopio, Pori, Kouvola, Suomi, Finland
