Acronis True Image 2010

We are happy to inform you that we have just released the **new version** of our flagship product **Acronis True Image Home 2010!**

In addition the standard award winning features found in previous versions, the new Acronis True Image Home 2010 provides numerous benefits including:

Timeless backup and recovery, Acronis Online Backup and support for Microsoft Windows 7

With Acronis True Image Home 2010, rest assured that all your important data including images, music, documents and applications are well protected and can easily be recovered in the event of any disaster.

- **Easy and Fast Backup and Recovery**

Acronis True Image Home 2010 provides home users reliable and timeless backup and recovery of their operating system, applications, settings and personal files.

- **Friendly, Windows®-style User Interface**

From an intuitive graphical interface, you can easily define where, locally or online, and how often to backup a PC based on your needs.

- **Acronis Online Backup™ to a secure location**

Optional Acronis online storage services are available to automatically backup valuable data or files over the internet to a secure location.

- **Continuous data protection**

In addition, Acronis Nonstop Backup™ provides continuous system and data protection, preventing data loss

- **New! Acronis Non-Stop Backup™**

Provides total desktop and laptop data protection with incremental backups to allow users to roll back their systems to any point in time in the past.

- **New! Support for Microsoft Windows 7**

Acronis True Image Home 2010 delivers comprehensive functionality to enhance Microsoft Windows 7's built-in backup capabilities. Protect your existing PC with a complete disk image before migrating to Windows 7. Once your new OS is up and running, use the full backup image to move files and folders into the new operating system.

- **New! Support for Virtual Hard Disk (VHD)**

Easily convert Acronis' backup images (.tib) into virtual hard disk files (.vhd) and vice versa, to run existing systems as virtual machines. Windows 7 Ultimate users can also boot from .vhd images.

- **New! Powerful Scheduler**

Use the new calendar view to build schedules and tasks. Suspend and enable tasks, specify dates to run tasks, and copy tasks to new dates.

- **New! Boot from Windows 7 image**

Windows 7 Ultimate users can boot from a backup image (.tib file) containing a backup of their system partition. This will allow the ability to test a backed up system without actual restoration.
